Subject: Follow-up documents for NIRIS from NCBC Davisville

Monica

I have been meaning to follow-up on this for a few months. It is my understanding (from Bonnie Capito) that at the RPMs discretion/preference, draft documents can be entered into NIRIS. I feel a complete record of drafts, comments and final documents is necessary for the record. This is why for all of my contracts (Davisville, Trenton and Warminster) draft versions are sent for inclusion into NIRIS. At Davisville, this is especially important because the EPA and RIDEM comment on final documents. Let me know if my earlier understanding is incorrect.

Secondly, the collection of comment letters and relevant files for all BRAC NE bases is outside my cubicle. We intermittently sent the "pile" to Tetra Tech, but now Critigen is the NIRIS RDM. Would you provide the appropriate address for me to send the NIRIS files to?

Thanks very much.
Jeff
